

## Showroom

Honorable Mention

### America's Mattress

Las Vegas

Design: Echeverria Design Group  
Coral Gables, Fla.

A contemporary environment, featuring the company's signature white and vibrant blue hues, delivers a strong brand message at America's Mattress. The 3,500-sq.-ft. showroom is designed as a prototype to be followed by franchisees. The use of furnishings and drywall ceilings define the different functional areas of the space. Among the unique design elements are "framing projector" light fixtures that frame the outline of each individual mattress on display, a custom carpet pattern made to emulate mattress quilting and the use of LCD monitors to display the product line.

**F**loating curved wood panels give a sense of movement to Vivi Ristorante. The elegant, upbeat 3,832-sq.-ft. restaurant is located in the heart of Miami's South Beach. The space boasts a sophisticated, stylish atmosphere, with marble floors, a mahogany bar and a partially open kitchen.
